NOTICE TO THE PUBLIC

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
Western Carolina University Water Treatment Plant Has Not Met Monitoring Requirements

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the compliance period(s) specified in the table below, we ["did not monitor or test" or "did not complete all monitoring or testing"] for the contaminants group(s) listed and therefore cannot be sure of the quality of our drinking water during that time.

<table>

</table>
| SYNTHETIC ORGANIC CHEMICALS/ PESTICIDES | WATER PLANT - ENTRY POINT TO THE DISTRIBUTION SYSTEM | JANUARY 2005 | 2 CONSECUTIVE QUARTERS/ EVERY 3 YEARS | Samples were only taken during 1 quarter in 2005  
Samples were taken in the 1st & 2nd quarters in 2008 |

** See bottom of this notice for the complete list of individual contaminants for each contaminant group

What should I do? There is nothing you need to do at this time.

What happened? What is being done? When will the problem be corrected?
The drinking water from our system was tested in June 2005 for SOC’s/ Pesticides. The results from these tests indicated that there was no detection of any of these contaminants in the water. However, our system was required to test in 2 consecutive quarters that year but only tested in one quarter. Before 2005 and since 2005, our system has tested for SOC’s/ Pesticides in 2 consecutive quarters every 3 years as required. The results from the tests have shown we are meeting drinking water standards.

System Name
Western Carolina University Water Treatment Plant

System Address (Street)
3476 Old Cullowhee Rd

Phone Number
828-227-7224

System PWSID #
01-50-116

System Address (City, State, Zip)
Cullowhee NC 28723

Violation Awareness Date: 4-28-08

Contaminant Group List

(SOC) – Synthetic Organic Chemicals/Pesticides - SOC’s are commonly used in industrial and manufacturing processes. SOC’s include 2,4-D, 2,4,5-TP (Silvex), 3-Hydroxycarbofuran, Alachlor, Aldicarb, Aldicarb Sulfone, Aldicarb Sulfoxide, Aldrin, Atrazine, Benzo(a)pyrene, Butachlor, Carbaryl, Carbofuran, Chlordane, Dalapon, Dieldrin, D(2-ethylhexyl)adipate, D(2-ethylhexyl)phthalate, Dibromochloropropane (DBCP), Dicamba, Dinoeb, Endrin, Ethylene dibromide (EDB), Heptachlor, Heptachlor Epoxide, Hexachlorobenzene, Hexachlorocyclopentadiene, Lindane, Methomyl, Metolachlor, Methoxychlor, Metribuzin, Oxamyl(verydate), PCBs, Propachlor, Pentachlorophenol, Picloram, Simazine, Toxaphene. Trichloroethane, 1,1,1,2-Tetrachloroethane, Tetrachloroethylene, 1, 1,2,2-Tetrachloroethane, Chlorobenzene, Benzene, Toluene, Ethylbenzene, Bromobenzene, Isopropylbenzene, Styrene, and n-Propylbenzene.
